And

Duke Energy Progress, LLC's Establishment of Solar Choice Metering Tariffs Pursuant to S.C. Code Ann. Section 58-40-20 (See Docket No. 2019-169-E)

MATTERS UNDER CONSIDERATION:

Technical Needs for Notice to be Published via Bill Insert

HEARING OFFICER'S ACTION:

At the January 20, 2021 Commission Business Meeting, the Commission voted to hold a Virtual Public Hearing in these dockets on March 30, 2021 for the purpose of receiving public testimony. As a result of this action, timely notice of this hearing must be published to the customers of DEC and DEP via bill insert.

The Clerk's Office shall provide a copy of the proposed Notice to the Companies, however, it is necessary to have input from the Companies regarding the required timing of the notice to ensure that all customers of both Companies can be notified during a normal billing cycle.

As soon as practical, but not later than Thursday, January 21, 2021, the Companies are requested to inform the Commission of the timing needs for the printing and distribution of bill inserts to all customers during a normal billing cycle.
